

WIPE PAPER V2: FLOOD-SIZED EDITION

INTRODUCTION

\$TOILETcoin isn't just a meme it's a giving mechanism. It's a signal to the overlooked, the degens, the visionaries and the ones who still believe Web3 can do more than line pockets. This is **#ThePeoplesCoin** because it was created to give back. To reward players. To fuel real-world charity. And to protect the community.

It's fun. It's wild. It's funny — but it's not a joke.

\$TOILETcoin delivers a secure, transparent drop ecosystem with built-in giving and restoration at its core. From day one, it's structured to support both **community rewards** and **impact initiatives** — all while anchoring a growing universe of arcade games, meme culture, and character-driven storytelling.

In a time when scams, rugs, and fraud run rampant, we decided to flush the system. **ToiletCoin is the antidote.** This is a space built for real restoration — where players are protected, donors are honored, and communities are uplifted.

If you play, give, and show up — the system remembers.

#TOILETISWATCHING

Start following the trail at ToiletPaperTrail.xyz and discover what's really happening behind the memes.

FlushVerse is where memes meet meaning. Where games meet giving. And where our mission — to cleanse the space and heal the world — begins.

 PLAY TO GIVE —  PLAY TO EARN —  PLAY TO RESTORE This is the official creed of the FlushVerse. This is the sacred loop.

We are the world's first Real World Meme (RWM) — a meme project with a Real World Mission, built to give, empower, and restore. Yes, it's an RWA... but we are proud to have coined the term RWM, and now we're proving it block by block. FlushVerse is where memes meet meaning

TOKENOMICS

Total Supply:

1,000,000,000 \$TOILETcoin

Initial Allocation:

- 10% — *FloodZion / FlushFoundation / Giving*
- 10% — *Marketing / Team / Devs*
- 10% — *Community Airdrops + Game Rewards*
(Scaled down to allow room for future ecosystem tokens)
- 60% — *Liquidity & Ecosystem Development*
- 10% — *DAO Reserve / Treasury*

This framework ensures long-term sustainability, real-world impact, and enough flexibility to support both community growth and future expansions of the FlushVerse economy.

FLUSHVERSE ARCADE ECONOMY: The Meme Engine of Restoration

FlushVerse isn't just Web3 gaming it's a playable revenue model for a meme-powered impact economy. Players fuel it, brands amplify it, and communities benefit.

Revenue Streams

- Ad Monetization (in-game banners, splash ads, partner placements)
- Sponsored Missions (co-branded levels, influencer integrations)
- \$TOILET Leaderboard Prizes (airdrop rewards + native token prizes)
- Monthly Reset Leaderboards (Top Poopers / Tappers)
- Music & Streamer Playtime (like publishing — play equals payout)

Revenue Sharing Structure

We scale our payout model in phases, tied to active player base milestones:

Active Players	Community Rewards	Charity Donations	Monthly Revenue Potential	Payout Pool (50%)
1,000	5%	5%	\$2K–\$5K	\$1K–\$2.5K
10,000	10%	10%	\$10K–\$50K	\$5K–\$25K
100,000+	25%	25%	\$100K–\$500K+	\$50K–\$250K+

This model ensures sustainability — starting lean (10% total) and scaling responsibly toward a 50/50 split between player rewards and charitable giving.

Global Flush Tracking

We track poop scores and tap stats by country/region. This unlocks new ways to:

- Reward the most active regions
- Spotlight national leaderboards
- Empower grassroots gaming economies globally

Top performing regions may receive first priority in future hidden drops.

“We track every flush. We honor every region.”

Airdrop Mechanics

Airdrops will be based on ongoing gameplay, engagement, and community impact not hype. We reward:

- Top players in each game
- Top regions based on monthly engagement
- Top players within those regions
- Verified top donors and community contributors

We also honor **top \$TOILETCOIN holders** long-term holders are eligible for surprise future airdrops, exclusive perks, and early access rewards. Holding \$TOILETCOIN signals belief, and the system is built to recognize and reward it.

 *In this economy, the best investment might be your toilet.*

Future hidden drops will be a core incentive layer — quietly rewarding loyal FlushVerse citizens, impactful givers, and committed \$TOILETCOIN holders. Airdrops are tracked over time. If you're holding, helping, and flushing — you're already being watched.

We don't reveal the full roadmap or names of tokens being dropped. But trust: if you play, give, and show up — the system remembers.

- Top players in each game
- Top regions based on monthly engagement
- Top players **within** those regions
- Verified top donors and community contributors

Future hidden drops will be a core incentive layer — quietly rewarding loyal FlushVerse citizens and impactful givers.

We don't reveal the full roadmap or names of tokens being dropped. But trust: if you play, give, and show up — the system remembers.

FlushVault Coming Soon

A sacred seat for the strongest holders. Stake. Sit. Receive.

 **Proof of Flush** is also in development — a future tracking system that will log contributions, gameplay, holding behavior, and more. The more flushed, the more favored.

More reward systems are unfolding in layers. While we flush forward, one thing is clear:

You'll want to hold onto your Toilet.

Airdrops are tracked over time. If you're holding, helping, and flushing — you're already being watched.

More reward systems — including **FlushVault**, a future staking and holding mechanism are in development. We don't reveal the full roadmap or names of tokens being dropped. But trust: if you play, give, and show up the system remembers.

SECURITY + TRANSPARENCY SYSTEMS

FlushShield (Coming Soon)

FlushShield protects against Web3 scams. From real-time wallet defense tools to game-based wallet security layers, this protocol will defend the community.

FlushScanner (Coming Soon)

A browser extension designed to detect rugs, honeypots, and spoof sites — a meme-wrapped weapon against fraud. Transparency and meme-tech meet in the pipes.

TRANSPARENCY + IMPACT

We don't just talk transparency — we build it in. Every flush, every tap, every dollar given is accounted for.

FlushZion.org

FlushZion.org is the public hub for:

- Monthly revenue & donation reports
- Regional leaderboard updates
- Tracking ad revenue flow
- Donor recognition and community impact stories

Exodus4Peace.org

This is our donation backbone. All verified charity funds are routed through this transparent wallet. 100% of funds deposited into this wallet go to giving — no exceptions.

- Donations are placed by the team and tracked on-chain
- Anyone can view flows, balances, and giving records

Top donors may receive airdrops and community honors in the FlushVerse.

FlushFoundation.org

FlushFoundation partners with real-world charities, organizations, and boots-on-the-ground teams to support their missions with direct aid. This allows the FlushVerse to amplify existing efforts through direct contributions and collaboration.

Flood Havens, Meal Shelter Hubs, and Global Restoration

FloodZion is more than a giving portal — it's the mission anchor for all real-world restoration layers in the FlushVerse.

Our long-term roadmap includes:

- **Flood Havens** — peaceful multi-unit shelter zones to restore families and individuals in crisis
- **Meal Shelter Hubs** — feeding centers that provide food, water, and care where it's needed most
- **Eden Centers** — spaces for youth development, tech access, gardening, healing, and elder mentorship

This is the *infrastructure of compassion*. We're flooding the earth with care — one need met, one family helped, one flush at a time.

Why is it Grandma's Favorite Coin?

Because of our +65 plus initiative too many seniors are targeted by scammers, fraud, and left without support. ToiletCoin powers a system that gives back with real-world aid like groceries, AC units, rent relief, and emergency help.

"I was struggling to make ends meet... and the FlushFoundation helped me."

We didn't make a meme for memes' sake we built a **meme that remembers Grandma**.

This isn't just education — it's restoration. These are the people the system forgot. The FlushVerse remembers. Too many seniors, widows, and forgotten people are scammed or excluded from crypto altogether. We're changing that. The +65 Initiative supports the elderly and underserved through targeted giveaways, airdrops, and future training, onboarding, and reward systems — because no one gets left behind.

FlushZion.org

FlushZion.org will be the public-facing hub for:

- Monthly revenue & donation reports
- Regional leaderboard updates
- Tracking ad revenue flow
- Donor recognition and community impact stories

Exodus4Peace.org

This is the donation backbone. All verified charity funds are routed through this transparent wallet. 100% of funds deposited into this wallet go to giving — no exceptions.

- Donations are placed by the team and tracked on-chain
- Anyone can view flows, balances, and giving records
- Top donors may receive airdrops and community honors in the FlushVerse.

ARCADE SCALING PLAN

FlushGames.io will serve as the hub for all FlushVerse arcade titles.

At launch:

- FlushCatcher and FlushTapper will power the first wave
- Each game includes leaderboard-based rewards
- Stats and player history will be saved over time

In the future:

- New game titles will be added periodically (goal: quarterly drops)
- Each title will be built around the same reward + donation mechanic
- The arcade becomes a content layer, ad layer, and restoration engine Every click, every flush, every tap feeds the mission.

"This isn't just gaming. This is playable philanthropy."

SHITOSHI.TUBE – THE STORY STREAM

"Where Legends Are Flushed Into Existence"

Shitoshi.Tube is the official streaming hub of the FlushVerse.

- Follow the adventures of Mr. Flush as he rises to become **King Flush**.
- Discover the world behind the memes — **character drops, secrets, and deeper lore** unfold as the journey continues.
- Each episode may unlock clues, reward codes, or even lead to hidden **FlushVerse perks**.

To know what's coming, you have to follow along.

ECOSYSTEM OVERVIEW

- FlushVerse Arcade – Home of FlushCatcher, FlushTapper, and future drops
- FlushFoundation – Partnering with verified global charities and donating to their real-world missions
- FloodZion.org – Our boots-on-the-ground impact & giving portal
- FlushZion – A knowledge hub & coordination directory for verified partnerships
- EXODUS Wallet – Powered by Exodus4Peace.org, ensuring on-chain transparency
- \$TOILETCOIN – The native token that fuels it all
- FlushProtocol / FlushShield / FlushScanner – Security and legitimacy layers of the FlushVerse
- SHITOSHI.TUBE – The official streaming hub of the FlushVerse, where Mr. Flush's journey to becoming King Flush unfolds

THE FLUSHMAP — ROAD TO RESTORATION

The FlushVerse unfolds in **flexible phases** — each one tied to community growth, surprise character drops, airdrops, and real-world impact. While we've mapped the journey below, remember: in the FlushVerse, **some things drop without warning**.

Phase Title		Description
1	The Flush Awakens	Token launch, WIPE PAPER reveal, arcade soft launch, and mission debut
2	Early Drops & Donor Recognition	First airdrops to \$TOILET holders, early donors honored, and character teasers begin
3	Flood Weeks	Global aid campaigns, leaderboard resets, and FlushZion activations
4	FlushVault Preview	Staking model teased, holding perks activated, deeper reward cycles unlocked
5	Character & Protocol Expansion	New characters, deeper lore, ecosystem token reveals, and full governance activation

Surprise character drops, hidden airdrops, and protocol reveals may occur at any time.

The roadmap will evolve, but the mission is fixed: **Give. Flush. Restore.** Additional surprise phases may be flushed in without warning.

FLUSHGUARD DAO — GOVERNANCE OF THE PEOPLE'S COIN

ToiletCoin is powered by purpose — and governed by the people.

FlushGuard DAO is the decentralized council of the FlushVerse. It's not just a governance tool — it's a **meme-led justice system** where holders and community members steer the future of the mission.

STRUCTURE

- **DAO Treasury Control:**

The 10% DAO Reserve from tokenomics will be managed transparently through on-chain voting.

- **Voting Power:**

- Based on \$TOILETcoin holdings (wallet-based weight)
- Certain actions may require FlushTag verification or prior contribution to qualify

- **Proposal Types:**

- Community Project Funding
- New Game or Feature Approvals
- Real-World Donation Targets
- Seasonal Airdrop Conditions
- Meme Law Amendments (*yes, this is real*)

PHILOSOPHY

FlushGuard DAO isn't built to bloat. It's built to protect.

"We don't vote to chase pumps — we vote to protect the mission, grow the system, and remember why we flush."

- **DAO Veto Power:** Founding wallets may intervene only in cases of attack or abuse — veto power is revocable by DAO vote
- **Seasonal Voting Cycles:** Quarterly community proposals and governance votes

SAMPLE PROPOSAL NAMES

- **Operation Golden Plunger** — Send aid to a selected region
- **Flush the Bots** — Block wallets proven to be exploiting the system
- **Praise the Throne** — Allocate extra funds for airdrop week or Grandma care
- **Upgrade the Pipes** — Approve dev proposals or expansions

CONCLUSION — THE FINAL FLUSH

We have proposed a system for **giving and rewarding** — one designed not around hype, but around **healing**. Not around greed, but around **gratitude**.

The FlushVerse is more than a meme project. It is a restoration engine built on joy, satire, transparency, and purpose — and powered by the conviction that blockchain should serve the people, not prey on them.

Through \$TOILETCOIN, we've created a model where every tap, flush, and holder matters. Where a grandma's grocery bag and a gamer's high score both earn recognition. Where giving is public, rewards are provable, and no one gets left behind.

What Bitcoin was for digital money, **ToiletCoin is for digital dignity and security**.

This is a new covenant in crypto — a protocol of **restoration** hidden inside the memes.

If you're here early... If you're here with heart... If you're here to flush fraud and fund the future... Then just remember: **this mission is sacred**.
